Houston | +1-413-472-7528 | niharchinta333@gmail.com | <https://linkedin.com/in/nihar-gupta-chinta>

Summary

A highly skilled Release Engineer with significant experience in DevOps processes and automation strategies. Proven success in developing scalable platforms using Kubernetes and Terraform, as well as implementing automated CI/CD pipelines on cloud platforms like Microsoft Azure. Known for leading impactful migrations and driving improvements in data security and deployment efficiency. Looking to leverage a strong engineering background to enhance project reliability and streamline development processes in a DevOps role.

Education

University of Massachusetts Amherst, USA

Feb 2023 - May 2024

Masters in Computer Science

• **GPA:** 3.8

• **Coursework:** Computer and Network Security, Secured Distributed Systems, Reinforcement Learning, Machine Learning, Distributed and Operating Systems

Mahindra École Centrale, Hyderabad, India

2014 - 2018

Bachelors in Computer Science

• **GPA:** 9.35/10

Experience

Schlumberger

Release Engineer

Houston, USA · Jun 2024 - Present

- Led the development of a scalable Generative AI platform using Kubernetes-based microservice architecture, which reduced deployment complexity and enhanced platform reliability by leveraging Terraform and Prometheus
- Engineered specialized microservices to integrate vector databases, improving data retrieval performance and enabling faster insights generation for internal platform users
- Implemented automated CI/CD pipelines with Kubernetes and ArgoCD on Microsoft Azure, cutting delivery times and enabling rapid, reliable deployments

DevOps Engineer

Pune, India · Jul 2018 - Aug 2021

- Developed and deployed robust microservices using Docker and Kubernetes to automate malware scanning, enhancing data security and reducing manual intervention.
- Automated the creation and management of Change Management Requests (CMRs) for production environments, significantly accelerating issue resolution and reducing administrative overhead.
- Led the migration of thousands of libraries from Nexus to Azure Artifacts, improving development workflows by enhancing efficiency, accessibility, and manageability, and enabling a more robust and agile development environment
- Architected and implemented a comprehensive Variable Management strategy, improving configuration consistency and reducing deployment errors across Data Ecosystem services.
- Maintained and optimized Kubernetes-based infrastructure using Terraform and Azure DevOps, automating resource provisioning and significantly shortening environment setup times.
- Promoted and strengthened DevOps culture within the team, receiving a Certificate of Appreciation for driving collaboration, automation adoption, and continuous improvement

Software Engineering Intern

Pune, India · May 2017 - Aug 2017

- Automated data ingestion by developing microservices for transferring data from WellDatabase to the Exploration and Production Data Lake, greatly streamlining synchronization processes.
- Improved code quality and maintainability through meticulous refactoring and comprehensive unit testing, achieving 98% code coverage.
- Collaborated with an agile team to design and deploy microservices on GCP using Docker, REST APIs, and Jenkins, enabling faster data processing and improving system reliability

Nibble Matrix

Front End Developer Intern

Hyderabad, India · May 2016 - Aug 2016

- Assisted in developing a dynamic, microservice-driven e-commerce platform using Node.js, Express.js, Angular, and MongoDB, facilitating rapid project deployment and customization.
- Collaborated efficiently within a team utilizing Git-based version control workflows, improving code maintainability and project management.

Technical Skills

- **Cloud & Containerization:** Kubernetes, Docker, Helm, Microsoft Azure, GCP, AWS, OCI, Terraform
- **Automation & DevOps Tools:** ArgoCD, Jenkins, Azure DevOps, Prometheus, Grafana, SonarQube, Whitesource
- **Programming & Scripting Languages:** Python, Bash, JavaScript, SQL, HTML, CSS

Certifications & Awards

- **Blueprint Commitment Award (Certificate of Excellence):**Schlumberger
- **Certified Kubernetes Application Developer (CKAD):**CNCF CKAD
